“3 Preparedness R’s: Ransomware, Restoration & Recovery”

Title: “ Property Damage Mitigation of Electronic and Mechanical Equipment”

Presentation Summary

Jay will discuss and provide examples of the effects and mitigation of electronic and mechanical losses suffered as a result of property damage. He will cover the different types of losses, the effects that the damages can have on the equipment and why it is important to decontaminate and mitigate the equipment as quickly as possible after the loss and minimize business interruption and down time.

Your Speaker

As President of RELECTRONIC-REMECH INC., since 1992, Jay has been instrumental in growing the company to over 30 employees and his key to success has been to ensure excellent reports, superior customer service and fair pricing to all insurers, adjusters and contractors. Jay graduated from Conestoga College as an Electronic Technician in 1985 and began his career providing sales, service, restoration and preventive maintenance for all electronic software and hardware.

Jay continues his commitment to the insurance industry by supporting all provincial and regional OIAA meetings, the CICMA and the CIAA nationally. RELECTRONIC-REMECH INC. is a member of the local Waterloo Chamber of Commerce and the Better Business Bureau.

“3 Preparedness R’s: Ransomware, Restoration & Recovery”

Title: “Ransomware”

Presentation Summary

Overview of what ransomware is, and how to detect it.

- The value of a Business Disaster Recovery Plan – including cyberattacks.
- What to include in a BDRP.
- Cyber Security, and tips on how to protect your organization (Endpoint Protection / Security Training)

Your Speaker

Matthew Watkinson joined Secure Sense Solutions in 2012 and is now the Chief Security Architect, in charge of assisting customers with their holistic security practices. Matt drives the Professional Services group, and is in charge of the technical aspects of product deployments, consulting engagements, penetration testing, and Secure Sense’s Managed Services Portfolio.

In his spare time he participates in bug-bounty programs and vulnerability hunting.

“3 Preparedness R’s: Ransomware, Restoration & Recovery

Title: “The Proven Approach to Table Top Exercise Design”

Presentation Summary

Designing and managing exercises for business continuity and/or emergency management plans can be a daunting task with a potential for embarrassing failure. Perhaps there is a degree of concern regarding alienation of employees and the management team. Additionally many people are just not sure where to start and how to best organize an exercise or test.

This workshop style session will support participants with the methodology to design, manage and evaluate successful table top exercises that hundreds of people have found helpful following our two day course.

This three hour workshop will focus on the following learning objectives;

1. Overcome the impediments to exercises and tests
 2. Gain support of management
 3. Implement a proven methodology to design a table top exercise
- half day training workshop

Your Speaker

Brian Miller is a Partner at Vanguard EMC Inc, a thriving consultancy consisting of 6 employees delivering best practice guidance for all aspects of emergency management and business continuity to government and enterprise clients throughout Canada. Brian is a certified business continuity professional, a certified DRI instructor as well as a certified lead auditor.

Thinking of attending our Fall Symposium? Consider the following:

1) Professional Development

You receive a full day of educational opportunities for learning along with a CEU certificate.

DRI Canada members can get a total of 19 CEU's for only \$100:

- 8 CEU's for attending this session (since the duration is 7 hours)
- 8 CEU's if you also attend the Fall 2016 BCM SYMPOSIUM which is included in your membership fee
- 3 CEU's for the one-year membership in DRIE SWO which is included in the registration fee

2) Quality Speakers

You will find only tried-and-true speakers and presentations at this BCM Symposium. No sales pitches or biased opinions are given. Attendees continue to return each year because of the stellar reputation of our sessions.

3) Cost Savings

Attendees receive complete access to conference materials for all sessions. Plus, we serve a meal and snacks / drinks throughout the symposium at no additional charge.

4) Networking

Make connections you will utilize again and again as you steer your organization toward total protection of your key business assets.

Networking opportunities abound before, during and after the Symposium. Rub elbows with our speakers during lunch / breaks.

5) Did I mention it is *free*?

This Symposium is free for all DRIE members, Sponsors, Speakers, and Invited Guests.

Anyone else pays only \$100.00 which provides a complimentary one year DRIE SWO membership and free admission to our next BCM Symposium and access to other DRIE chapter events across Canada, for a full year!

Register online at:

The DRIE SWO internet website ...
